Apology for Coca-Cola 350ml PET Partial Labeling Error

Thank you for your daily support and guidance for the sales of our products.

It is regrettable to inform you that we have discovered an error in the nutrition facts label (carbohydrate) of Coca-Cola 350ml PET manufactured at our Akashi Plant, as detailed below.

After finding the Error, we reported to the administrative authority forthwith, consulted on the response and decided to make an official announcement on our company website to notify the correct information. As to the content of the product, it is identical to that of regular products and there are no quality concerns so that consumers can rest assured to drink the product.

Please accept our sincerest apology for any trouble and concerns this may have caused to you.

We are committed to further enhancing our management system to prevent reoccurrence. We would be most grateful for your understanding.
