Coca-Cola Bottlers Japan Inc.

Enjoy easy-to-make "Home Mocktails" and stay happy at home!

Introduction of alcohol-free drinks "Mocktails"

Coca-Cola Bottlers Japan Inc. (Headquarters in Minato-ku, Tokyo; Representative Director & President Calin Dragan; hereafter "CCBJI") is taking every possible approach in response to the ever-changing social environment amid the spread of COVID-19, with the top priority on the health of all stakeholders.

Many people are now requested to work from home and have less occasions to enjoy eating and drinking with friends and colleagues, putting a hold on a number of things everyday. Under such circumstances, virtual homecoming visits during the Golden Week are recommended, and "remote drinking parties" via teleconference systems are becoming a new boom.

To support these activities, we would like to introduce "Home Mocktails" as a new way to enjoy non-alcoholic, festive-looking "Mocktails" that are usually served at bars and restaurants and enjoyed by all, including those who don't drink alcohol or must drive home. As mixed drinks with an extra touch, Mocktails can be cooking partners for those who usually eat out but are currently taking on a challenge of making home meals or for those who want to spice up a "remote drinking party". Home Mocktails are easy to prepare at home and make everyone happy. For recipes, please visit our official website. \times 1

You don't even have to go out because all the drinks you need to make a glass of Mocktail are available on-line. Take advantage of this opportunity and shop on-line. X 2

Under our corporate philosophy of delivering happy moments to everyone while creating value, we will provide services and information that are useful for people through our core business.

■ About Mocktail

"Mocktail" is a word coined by the combination of 'mock', which means to imitate or mimic, and 'cocktail', and is a new way to call alcohol-free versions of cocktails.

With its fruity flavors and fancy look, Mocktails have been popular in London to enjoy non-alcoholic drinks! There is a rapidly increasing number of restaurants who carry Mocktails as a way to offer special drinks even for non-drinkers and drivers to enjoy.
