News Release

Supporting healthcare professionals and children

Donated Coca-Cola products to

healthcare institutions and children's cafeterias in Hachioji City

---

We would like to express our sincere sympathy for those who have suffered from the COVID-19 pandemic. We would also like to thank everyone who is working tirelessly, even at this moment, to prevent the spread of COVID-19.

Coca-Cola Bottlers Japan Inc. (Headquarters in Minato-ku, Tokyo; Representative Director & President Calin Dragan; hereafter "CCBJI") is working on various community revitalization initiatives in response to the ever-changing social environment amid the spread of COVID-19, with the top priority on the health of all stakeholders.

Amid such circumstances, CCBJI joined forces with Hachioji City to discuss what we can do for the healthcare professionals and children's cafeterias, and on Friday, May 13, we donated 1,500 bottles of Coca-Cola products. These products will be handed over to the healthcare institutions and children's cafeterias by Hachioji City.

Under our corporate philosophy to "Deliver happy moments to everyone while creating values", CCBJI will remain committed to CSV (Creating Shared Value) and provide solutions through our business to the challenges that regions are faced with, and continue to seek for collaboration with all our partners.

【Coca-Cola products donated through Hachioji City to healthcare institutions and children's cafeterias in

Hachioji City】
